Safety Data Sheet according to OSHA HazCom Standard (2024) requirements

Initial Date: 14/02/2021 Revision Date: 24/10/2025 Print Date: 06/11/2025

S.GHS.USA.EN.E

#### **SECTION 1 Identification**

#### **Product Identifier**

| Product name                  | Leybonol LVO 700                    |  |  |
|-------------------------------|-------------------------------------|--|--|
| Synonyms                      | 001; L70002; L70005; L70020; L70099 |  |  |
| Chemical formula              | Not Applicable                      |  |  |
| Other means of identification | 300999466                           |  |  |

#### Recommended use of the chemical and restrictions on use

Relevant identified uses Use according to manufacturer's directions.

#### Name, address, and telephone number of the chemical manufacturer, importer, or other responsible party

| Registered company name | Leybold USA Inc.                                    |  |  |
|-------------------------|---|--|--|
| Address                 | 005 Enterprise Drive Export, PA 15632 United States |  |  |
| Telephone               | 800-764-5369  |  |  |
| Fax                     | 1 800-215-7782                                      |  |  |
| Website                 | Not Available                                       |  |  |
| Email                   | info.ex@leybold.com                                 |  |  |

## **Emergency phone number**

| Association / Organisation          | CHEMWATCH EMERGENCY RESPONSE (24/7) |  |
|-------------------------------------|-------------------------------------|--|
| Emergency telephone number(s)       | +1 855-237-5573 (ID#: 5439-07)      |  |
| Other emergency telephone number(s) | +61 3 9573 3188                     |  |

# SECTION 2 Hazard(s) identification

# Classification of the substance or mixture

### NFPA 704 diamond

Note: The hazard category numbers found in GHS classification in section 2 of this SDSs are NOT to be used to fill in the NFPA 704 diamond. Blue = Health Red = Fire Yellow = Reactivity White = Special (Oxidizer or water reactive substances)

Classification Non hazardous

#### Label elements

| Hazard pictogram(s) | Not Applicable |
|---------------------|----------------|
|                     |                |
| Signal word         | Not Applicable |

Initial Date: 14/02/2021 Revision Date: 24/10/2025 Print Date: 06/11/2025

#### Hazard statement(s)

Not Applicable

## Hazard(s) not otherwise classified

Not Applicable

## Precautionary statement(s) Prevention

Not Applicable

#### Precautionary statement(s) Response

Not Applicable

#### Precautionary statement(s) Storage

Not Applicable

#### Precautionary statement(s) Disposal

Not Applicable

No further product hazard information.

#### **SECTION 3 Composition / information on ingredients**

#### **Substances**

See section below for composition of Mixtures

#### **Mixtures**

| CAS No        | %[weight] | Name                                       |
|---------------|-----------|--|
| Not Available | 100       | Ingredients determined not to be hazardous |

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

## **SECTION 4 First-aid measures**

## Description of first aid measures

| Eye Contact   | If this product comes in contact with eyes:  • Wash out immediately with water.  • If irritation continues, seek medical attention.  • Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. |  |
|---|--|--|
| Skin Contact  Skin Contact  Flush skin and hair with running water (and soap if available).  Seek medical attention in event of irritation. |  |  |
| Inhalation  | Inhalation  If fumes, aerosols or combustion products are inhaled remove from contaminated area.  Other measures are usually unnecessary.  |  |
| Ingestion   | Ingestion  Immediately give a glass of water.  First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor.   |  |

## Most important symptoms and effects, both acute and delayed

See Section 11

# Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

# **SECTION 5 Fire-fighting measures**

# Extinguishing media

- Water spray or fog.
- Alcohol stable foam.
- Dry chemical powder.
- Carbon dioxide.

Do not use water jets.

### Special hazards arising from the substrate or mixture

Fire Incompatibility

• Avoid contamination with oxidising agents i.e. nitrates, oxidising acids, chlorine bleaches, pool chlorine etc. as ignition may

Initial Date: 14/02/2021 Revision Date: 24/10/2025 Print Date: 06/11/2025

#### Special protective equipment and precautions for fire-fighters

| Fire Fighting         | <ul> <li>Alert Fire Brigade and tell them location and nature of hazard.</li> <li>Wear full body protective clothing with breathing apparatus.</li> <li>Prevent, by any means available, spillage from entering drains or water course.</li> <li>Use water delivered as a fine spray to control fire and cool adjacent area.</li> </ul> |
|-----------------------|---|
| Fire/Explosion Hazard | <ul> <li>Combustible.</li> <li>Slight fire hazard when exposed to heat or flame.</li> <li>Heating may cause expansion or decomposition leading to violent rupture of containers.</li> <li>May emit acrid smoke and corrosive fumes.</li> </ul>  |

#### **SECTION 6 Accidental release measures**

#### Personal precautions, protective equipment and emergency procedures

See section 8

#### **Environmental precautions**

See section 12

## Methods and material for containment and cleaning up

| Minor Spills | <ul> <li>Remove all ignition sources.</li> <li>Clean up all spills immediately.</li> <li>Avoid breathing vapours and contact with skin and eyes.</li> <li>Control personal contact with the substance, by using protective equipment.</li> </ul> |
|--------------|--|
| Major Spills | Moderate hazard.  Clear area of personnel and move upwind.  Alert Fire Brigade and tell them location and nature of hazard.  Wear breathing apparatus plus protective gloves.  |

Personal Protective Equipment advice is contained in Section 8 of the SDS.

## **SECTION 7 Handling and storage**

## Precautions for safe handling

| Safe handling  Limit all unnecessary personal contact.  Wear protective clothing when risk of exposure occurs.  Use in a well-ventilated area.  When handling DO NOT eat, drink or smoke. |   |
|---|---|
| Other information   | <ul> <li>Store in original containers.</li> <li>Keep containers securely sealed.</li> <li>No smoking, naked lights or ignition sources.</li> <li>Store in a cool, dry, well-ventilated area.</li> </ul> |

#### Conditions for safe storage, including any incompatibilities

| <ul> <li>Metal can or drum</li> <li>Packaging as recommended by manufacturer.</li> <li>Check all containers are clearly labelled and free from leaks.</li> </ul> |   |
|--|---|
| Storage incompatibility  | <ul> <li>Avoid reaction with oxidising agents</li> <li>Avoid storage with reducing agents.</li> </ul> |

# **SECTION 8 Exposure controls / personal protection**

## **Control parameters**

Occupational Exposure Limits (OEL)

INGREDIENT DATA

#### **Exposure controls**

#### Appropriate engineering controls

Engineering controls are used to remove a hazard or place a barrier between the worker and the hazard. Well-designed engineering controls can be highly effective in protecting workers and will typically be independent of worker interactions to provide this high level of protection.

The basic types of engineering controls are:

Process controls which involve changing the way a job activity or process is done to reduce the risk.

Enclosure and/or isolation of emission source which keeps a selected hazard "physically" away from the worker and ventilation that strategically "adds" and "removes" air in the work environment.

#### Individual protection measures, such as personal protective equipment

# Eye and face protection

- Safety glasses with side shields
- ► Chemical goggles. [AS/NZS 1337.1, EN166 or national equivalent]
- Contact lenses may pose a special hazard; soft contact lenses may absorb and concentrate irritants. A written policy document, describing the wearing of lenses or restrictions on use, should be created for each workplace or task. This should include a review of lens absorption and adsorption for the class of chemicals in use and an account of injury experience.

#### Skin protection

#### See Hand protection below

▶ Wear general protective gloves, eg. light weight rubber gloves.

#### Hands/feet protection

The selection of suitable gloves does not only depend on the material, but also on further marks of quality which vary from manufacturer to manufacturer. Where the chemical is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

The exact break through time for substances has to be obtained from the manufacturer of the protective gloves and has to be observed when making a final choice.

Personal hygiene is a key element of effective hand care.

#### **Body protection**

See Other protection below

# Other protection

No special equipment needed when handling small quantities.

#### OTHERWISE:

- Overalls.
  - Barrier cream.
  - ▶ Eyewash unit.

#### **SECTION 9 Physical and chemical properties**

### Information on basic physical and chemical properties

| Appearance  | Colorless to yellow liquid |   |                |
|---|----------------------------|---|----------------|
| Physical state                                    | Liquid                     | Relative density (Water = 1)                              | Not Available  |
| Odour   | Characteristic             | Partition coefficient n-<br>octanol / water               | Not Available  |
| Odour threshold                                   | Not Available              | Auto-ignition temperature (°C)                            | Not Available  |
| pH (as supplied)                                  | Not Available              | Decomposition temperature (°C)                            | Not Available  |
| Melting point / freezing point (°C)               | Not Available              | Viscosity (cSt)   | Not Available  |
| Initial boiling point and boiling range (°C)      | Not Available              | Molecular weight (g/mol)                                  | Not Applicable |
| Flash point (°C)                                  | Not Available              | Taste   | Not Available  |
| Evaporation rate                                  | Not Available              | Explosive properties                                      | Not Available  |
| Flammability                                      | Not Applicable             | Oxidising properties                                      | Not Available  |
| Upper Explosive Limit (%)                         | Not Available              | Surface Tension (dyn/cm<br>or mN/m)                       | Not Available  |
| Lower Explosive Limit (%)                         | Not Available              | Volatile Component (%vol)                                 | Not Available  |
| Vapour pressure (kPa)                             | Not Available              | Gas group   | Not Available  |
| Solubility in water                               | Immiscible                 | pH as a solution (1%)                                     | Not Available  |
| Vapour density (Air = 1)                          | Not Available              | VOC g/L   | Not Available  |
| Heat of Combustion (kJ/g)                         | Not Available              | Ignition Distance (cm)                                    | Not Available  |
| Flame Height (cm)                                 | Not Available              | Flame Duration (s)  | Not Available  |
| Enclosed Space Ignition<br>Time Equivalent (s/m3) | Not Available              | Enclosed Space Ignition<br>Deflagration Density<br>(g/m3) | Not Available  |

# **SECTION 10 Stability and reactivity**

| Reactivity                         | See section 7   |
|------------------------------------|---|
| Chemical stability                 | Product is considered stable and hazardous polymerisation will not occur. |
| Possibility of hazardous reactions | See section 7   |
| Conditions to avoid                | See section 7   |
| Incompatible materials             | See section 7   |
| Hazardous decomposition products   | See section 5   |

# **SECTION 11 Toxicological information**

# Information on toxicological effects

| Information on toxicologic              | al effects  |
|---|---|
| a) Acute Toxicity                       | Based on available data, the classification criteria are not met.   |
| b) Skin Irritation/Corrosion            | Based on available data, the classification criteria are not met.   |
| c) Serious Eye<br>Damage/Irritation     | Based on available data, the classification criteria are not met.   |
| d) Respiratory or Skin<br>sensitisation | Based on available data, the classification criteria are not met.   |
| e) Mutagenicity                         | Based on available data, the classification criteria are not met.   |
| f) Carcinogenicity                      | Based on available data, the classification criteria are not met.   |
| g) Reproductivity                       | Based on available data, the classification criteria are not met.   |
| h) STOT - Single Exposure               | Based on available data, the classification criteria are not met.   |
| i) STOT - Repeated<br>Exposure          | Based on available data, the classification criteria are not met.   |
| j) Aspiration Hazard                    | Based on available data, the classification criteria are not met.   |
|   |   |
| Inhaled                                 | The material is not thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting. |
| Ingestion                               | The material has <b>NOT</b> been classified by EC Directives or other classification systems as "harmful by ingestion". This is because of the lack of corroborating animal or human evidence.  |

| Skin Contact | The liquid may be able to be mixed with fats or oils and may degrease the skin, producing a skin reaction described as non-allergic contact dermatitis. The material is unlikely to produce an irritant dermatitis as described in EC Directives. |
|--------------|---|
| Еуе          | Although the liquid is not thought to be an irritant (as classified by EC Directives), direct contact with the eye may produce transient discomfort characterised by tearing or conjunctival redness (as with windburn).                          |
| Chronic      | Long-term exposure to the product is not thought to produce chronic effects adverse to the health (as classified by EC Directives using animal models); nevertheless exposure by all routes should be minimised as a matter of course.            |
|              |   |

| Ingredient | Bioaccumulation                       |
|------------|---------------------------------------|
|            | No Data available for all ingredients |

#### Mobility in soil

| Ingredient | Mobility                              |
|------------|---------------------------------------|
|            | No Data available for all ingredients |

#### Other adverse effects

No evidence of ozone depleting properties were found in the current literature.

## **SECTION 13 Disposal considerations**

#### Waste treatment methods

Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

A Hierarchy of Controls seems to be common - the user should investigate:

- Reduction
- Reuse
- Recycling
- Disposal (if all else fails)

#### Product / Packaging disposal

This material may be recycled if unused, or if it has not been contaminated so as to make it unsuitable for its intended use.

- ▶ DO NOT allow wash water from cleaning or process equipment to enter drains.
- It may be necessary to collect all wash water for treatment before disposal.
- In all cases disposal to sewer may be subject to local laws and regulations and these should be considered first.
- Where in doubt contact the responsible authority.
- Recycle wherever possible or consult manufacturer for recycling options.
- ▶ Consult State Land Waste Authority for disposal.
- Bury or incinerate residue at an approved site.
- Recycle containers if possible, or dispose of in an authorised landfill.

## State Regulations

Chemwatch: 5439-07 Version No: 4.1

Page 8 of 9 Initial Date: 14/02/2021 Revision Date: 24/10/2025 Leybonol LVO 700 Print Date: 06/11/2025

#### US. California Proposition 65

MARNING: . For more information, go to <a href="https://www.P65Warnings.ca.gov">www.P65Warnings.ca.gov</a>

Not Applicable

#### **National Inventory Status**

| National Inventory   | Status        |  |  |  |
|--|---------------|--|--|--|
| Australia - AIIC / Australia<br>Non-Industrial Use   | Not Available |  |  |  |
| Canada - DSL   | Not Available |  |  |  |
| Canada - NDSL  | Not Available |  |  |  |
| China - IECSC  | Not Available |  |  |  |
| Europe - EINEC / ELINCS /<br>NLP   | Not Available |  |  |  |
| Japan - ENCS   | Not Available |  |  |  |
| Korea - KECI   | Not Available |  |  |  |
| New Zealand - NZIoC  | Not Available |  |  |  |
| Philippines - PICCS  | Not Available |  |  |  |
| USA - TSCA   | Not Available |  |  |  |
| Taiwan - TCSI  | Not Available |  |  |  |
| Mexico - INSQ  | Not Available |  |  |  |
| Vietnam - NCI  | Not Available |  |  |  |
| Russia - FBEPH   | Not Available |  |  |  |
| UAE - Control List<br>(Banned/Restricted<br>Substances)  | Not Available |  |  |  |
| Yes = All CAS declared ingredients are on the inventory  Legend:  No = One or more of the CAS listed ingredients are not on the inventory. These ingredients may be exercise registration. |               |  |  |  |

# **SECTION 16 Other information**

| Revision Date | 24/10/2025 |
|---------------|------------|
| Initial Date  | 14/02/2021 |

#### **SDS Version Summary**

| Version | Date of<br>Update | Sections Updated   |
|---------|-------------------|--|
| 3.2     | 14/04/2022        | Physical and chemical properties - Appearance, Identification of the substance / mixture and of the company / undertaking - Supplier Information |
| 4.1     | 24/10/2025        | Expiration. Review and Update  |

## Other information

Classification of the preparation and its individual components has drawn on official and authoritative sources as well as independent review by the Chemwatch Classification committee using available literature references.

The SDS is a Hazard Communication tool and should be used to assist in the Risk Assessment. Many factors determine whether the reported Hazards are Risks in the workplace or other settings. Risks may be determined by reference to Exposures Scenarios. Scale of use, frequency of use and current or available engineering controls must be considered.

## **Definitions and abbreviations**

- ▶ PC TWA: Permissible Concentration-Time Weighted Average
- ▶ PC STEL: Permissible Concentration-Short Term Exposure Limit
- ▶ IARC: International Agency for Research on Cancer
- ▶ ACGIH: American Conference of Governmental Industrial Hygienists
- ▶ STEL: Short Term Exposure Limit
- ► TEEL: Temporary Emergency Exposure Limit。
- ▶ IDLH: Immediately Dangerous to Life or Health Concentrations
- ▶ ES: Exposure Standard
- ▶ OSF: Odour Safety Factor
- ▶ NOAEL: No Observed Adverse Effect Level
- LOAEL: Lowest Observed Adverse Effect Level
- ▶ TLV: Threshold Limit Value

#### Leybonol LVO 700

Initial Date: **14/02/2021** Revision Date: **24/10/2025** 

Print Date: 06/11/2025

- ▶ LOD: Limit Of Detection
- ▶ OTV: Odour Threshold Value
- ▶ BCF: BioConcentration Factors
- ▶ BEI: Biological Exposure Index
- ▶ DNEL: Derived No-Effect Level
- ▶ PNEC: Predicted no-effect concentration
- ▶ MARPOL: International Convention for the Prevention of Pollution from Ships
- ▶ IMSBC: International Maritime Solid Bulk Cargoes Code
- ▶ IGC: International Gas Carrier Code
- ▶ IBC: International Bulk Chemical Code
- ▶ AIIC: Australian Inventory of Industrial Chemicals
- ▶ DSL: Domestic Substances List
- ▶ NDSL: Non-Domestic Substances List
- ▶ IECSC: Inventory of Existing Chemical Substance in China
- ▶ EINECS: European INventory of Existing Commercial chemical Substances
- ▶ ELINCS: European List of Notified Chemical Substances
- ▶ NLP: No-Longer Polymers
- ▶ ENCS: Existing and New Chemical Substances Inventory
- KECI: Korea Existing Chemicals Inventory
- ▶ NZIoC: New Zealand Inventory of Chemicals
- ▶ PICCS: Philippine Inventory of Chemicals and Chemical Substances
- ► TSCA: Toxic Substances Control Act
- ▶ TCSI: Taiwan Chemical Substance Inventory
- ▶ INSQ: Inventario Nacional de Sustancias Químicas
- ▶ NCI: National Chemical Inventory
- ▶ FBEPH: Russian Register of Potentially Hazardous Chemical and Biological Substances
