

# External silencer ES 25 L, DN 25

---

**PFEIFFER** 

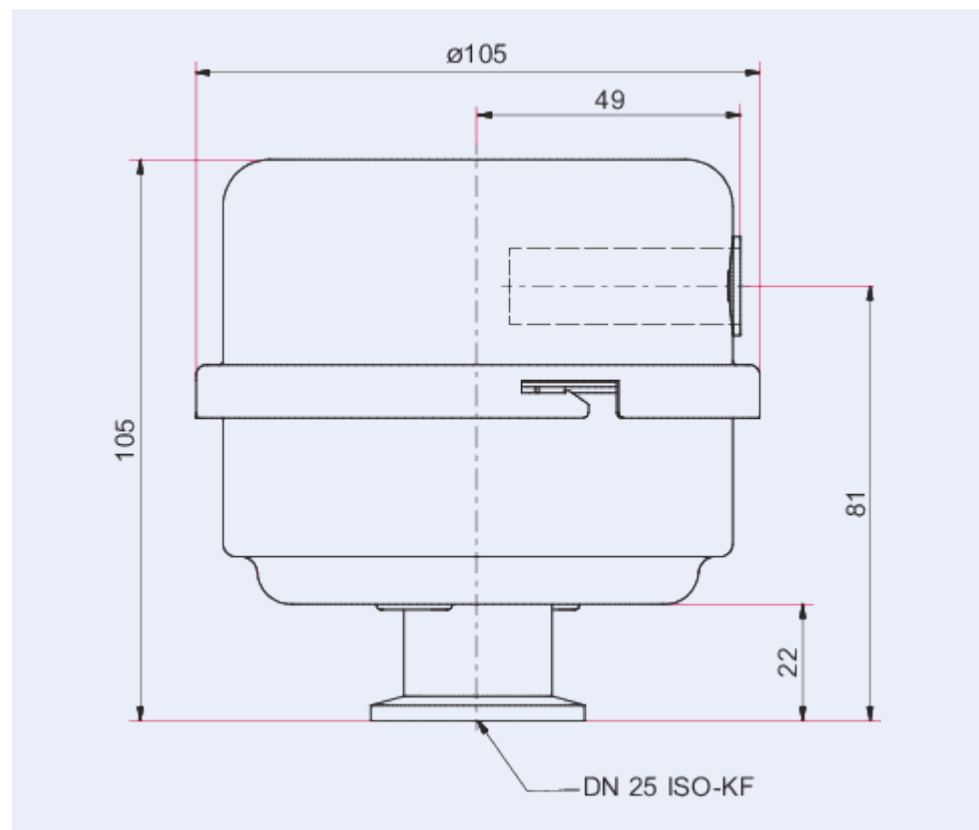

Illustration only

## External silencer ES 25 L, DN 25

- Silencer for outlet
- Connector DN 25 ISO-KF
- Reduces the sound level by up to 10 dB(A)
- This accessory do not have ATEX certification

## Dimensions

| Technical Data               | External silencer ES 25 L, DN 25                 |
|------------------------------|--------------------------------------------------|
| For pumping speed up to      | 40 m <sup>3</sup> /h                             |
| Differential pressure        | 40 hPa                                           |
| Over pressure max.           | 400 hPa                                          |
| Ambient temperature          | 26 – 104 °C                                      |
| Temperature: Storage, max    | 55 °C                                            |
| Temperature: Storage, min    | -25 °C                                           |
| Grain size limit (separable) | 10 µm                                            |
| For pumping speed up to      | 40 m <sup>3</sup> /h   23.544 cfm   666.68 l/min |
| Overpressure max.            | 400 hPa   300 Torr   400 mbar                    |
| Weight                       | 0.57 kg   1.26 lb                                |
| Degree of separation         | 99 %                                             |
| Inlet pressure max.          | Atmospheric pressure                             |
| Weight                       | 0.57 kg                                          |
| Connection flange (in)       | DN 25 ISO-KF                                     |

| Order number                     | External silencer ES 25 L, DN 25 |
|----------------------------------|----------------------------------|
| External silencer ES 25 L, DN 25 | PD Z10 001                       |

Errors and/or changes excepted. - 2/20/2025
