

Vibration damper for HiPace 60/80, DN 63 CF- F

PFEIFFER 

Vibration damper

Illustration only

Vibration damper for HiPace 60/80, DN 63 CF-F

- Connection for DN 63 CF-F
- Suitable for HiPace 60/80 and SplitFlow 50
- For the employment of turbopumps on systems and plants that are sensitive to vibration
- The flow resistance should be taken into account at the design of the pumping system
- Only vertical operation allowed
- Note: Fastening of the pump see operating instructions
- An additional pump mounting is required

Dimensions

A 98 mm

Technical Data

Connection flange

Vibration damper for HiPace 60/80, DN 63 CF-F

DN 63 CF-F

Order number

Vibration damper for HiPace 60/80,
DN 63 CF-F

Vibration damper for HiPace 60/80, DN 63 CF-F

PM 006 801 -X
